- The final working group draft was disseminated to the working group members with a request that they give it one last review, and telephone any comments they wish to make to CIPC staff no later than 7 September. Three issues remain that cannot be resolved within the working group, and need therefore, to be addressed by CIPC management or the principals themselves. These issues are:
 - The NIO/EA's objection to Recommendation #1 which calls for periodic working level Community meetings with collection, analysts, and consumers. The NIO insists the recommendation be deleted entirely rather than simply noting his dissent as in the current text.
